An unpleasant feature of all this Sullivan and Corbett talk since the big fight is the tendeacy shown by some to make much of Sullivan's popularity as a man at the expense of Corbett's popularity in a similar sense. Even though there may never be another Sullivan, it matters little, for there is a Corbett, and good judges concede that the pugilist never lived that outclessed him. A feature of Sullivan's personality is his rugged honesty, we are told, and while nobody who knows the big fellow, questions the fruth of this, there is no reason to believe that corbett is any the less honest—though, perhaps, not so rugged. Corbett has other personalites, that will serve to make him popular with the "masses" and others—his unfailing courtesy and unaffectedness.
